Patient Signature_____

By signing this form, I authorize the release of all information to my insurance companies. I authorize my insurance company to remit payment directly to the doctor. I hereby give my permission to receive chiropractic care performed by Dr. Krantz and staff. I understand that regardless of any insurance coverage, I am personally responsible for my bill. I also understand any nutritional program is not intended as primary therapy for any disease. Supplements are provided solely to support good nutrition with the intent of supporting the physiological and biochemical processes of the human body. We do not offer to diagnose, treat, cure, or prevent any disease or condition other than neuromusculoskeletal conditions. We do expect payment at the time of service unless otherwise specified.

genesis CHIROPRACTIC Center, S.C.

TERMS OF ACCEPTANCE: When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective. We have found that if each patient understands the meaning and goal of chiropractic care, they respond much better to their care. This is why here at Genesis Chiropractic, patient education is a priority. Please understand that chiropractic has only one goal and it is important that each patient understands both the objective and the methods that will be used to attain it. This will prevent any confusion or disappointment and help you reach your goals.

Adjustment: An adjustment is the specific application of force to facilitate the body's correction of a subluxation. Our chiropractic method of correction is by specific adjustments of the spine. As with any form of health care, in very rare instances, chiropractic care may pose certain risks. Sprain, strain, or general aggravation of an inflammatory condition may result from certain chiropractic maneuvers. According to research, the chance of this is approximately 1 in 3.3 million. As with many health related procedures, a patient may have soreness during the initial phase of care.

Health: A state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebra in the spinal column which may cause alteration in the nerve function and interference to the transmission of mental impulses from the brain through the nervous system to the rest of the body. This can result in a lessening of the body's innate ability to express its maximum health potential and a state of dis-ease. We do not offer to diagnose or treat any condition other than vertebral subluxation nor do we offer advice regarding treatment prescribed by others. However, if during the course of a chiropractic spinal examination we encounter an unusual finding, we will advise and refer you to a health care professional that specializes in that area of health care.

OFFICE POLICIES

For best results, visit frequency should be kept according to your suggested treatment plan.
It is best for missed appointments to be made up within 48 hours for you to see best results.
Please call if you are going to be late.
If three or more appointments are missed without any call or notification, we will consider your case self dismissed.
Payment in full is to be expected after each treatment, unless other arrangements have been made.
Any discount for commitment to a plan will be void if care ends prematurely. You will then be sent a bill for any balance owed.

HIPPA PRIVACY INFORMATION

By signing below I agree that I have had the opportunity to read the offices HIPPA privacy regulations and patient's right and have been offered a copy of them for my records.
